To

The President

of The University of Toronto

Toronto. (Ontario).

Canada.

Dear Sir,

I have received your address through one of my friends and I take the liberty of addressing you regarding the following matter:

An acquaintance of mine, who has finished the Technical Department of the Institute of the Prince of Oldenburg and who has been working for a long time in the large munition-factories of Geneva, desires to obtain the degree of ENGINEER.

Are you granting in certain cases a degree "in absentia" ? If so, please give me full particulars of your courses in view of obtaining the said degree of Engineer.

./.

Noted, S

March 1918

Please quote your LOWEST TERMS and inform me the SHORTEST TIME in which my friend could secure your degree; he is a Russian citizen.

If you do not grant such degrees, you would oblige me very much by giving names of suitable schools, where I could address myself.

As the matter is urgent, your immediate reply would greatly oblige

Yours faithfully
ÉCOLE MODERNE DE LANGUES

Le Directeur:

Y. Dietrich *D. Litt.*

Dr. S. Dietrich,
42 Rue du Rhone,
Geneva, Switzerland.

Dear Sir:

The University of Toronto does not grant such degrees in Engineering as you refer to. Our only degree in Engineering is awarded to students who have taken the regular four years' course with us. I cannot give you the name of any school in Canada which would confer the degree that you would wish your friend to receive.

Yours sincerely,

President.
